ENTREPRENEURIAL VENTURES

STEADY

Atlanta, GA

Cofounder

May 2026 to Present

- Cofounded Steady, a consumer nervous-system-regulation application designed to help users manage stress, anxiety, and emotional dysregulation through evidence-based, in-the-moment regulation practices
- Selected into Georgia Tech's Create-X Customer Discovery Summer Program, leading structured customer discovery interviews and validating problem-solution fit across target user segments
- Partner closely with cofounder Winnie Taiwo on product strategy, go-to-market positioning, and early growth experiments while preparing the business for formal incorporation

MJH CONSULTING

Atlanta, GA

Founder & Principal Advisor

2026 to Present

- Founded an independent strategy and advisory practice for product leaders, offering Strategic Roadmap Engagements, Fractional Chief Product Officer partnerships, Strategy Sprints, Expert Advisory Access, and on-site / virtual workshops across financial services, healthcare, SaaS, and professional services
- Designed and built the full commercial stack independently: marketing site, secure client portal with authentication and admin dashboards, Stripe Checkout payment flow, automated email pipeline, inquiry triage, and system-alert observability
- Scoped the practice as a compliant outside activity with pre-acceptance conflict screening, explicit industry exclusions, and a published Outside Activities & Employer Conflict of Interest clause in the published Terms of Service

EXPERIENCE

AUTODESK

Atlanta, GA

Senior Associate Product Manager, Reporting Lead

April 2026 to Present

- Lead product strategy and execution for an enterprise reporting and usage analytics domain, defining roadmap, OKRs, and customer-facing measurement so customers can make data-driven decisions about their consumption and entitlements
- Partner with engineering, design, data science, and customer-success counterparts to translate enterprise admin and end-user feedback into prioritized product investments and clear release plans
- Own stakeholder alignment across senior leadership, product peers, and field teams; drive cross-functional rituals (ceremonies, reviews, planning) that keep the domain on a coherent strategy

MBA Intern, Product Manager, Product Operations

2025 to 2026

- Drove execution of an enterprise agentic-AI admin product through a customer beta from conception to launch alongside a co-PM, enabling cross-team agentic workflows on the platform
- Supported product ceremonies for the enterprise reporting domain and led delivery of a flagship product epic by defining use cases and success criteria, establishing the data foundation, driving PRD updates, and aligning cross-functional stakeholders on roadmap and OKRs
- Delivered a cross-org product roadmap standardization analysis by facilitating design thinking sessions with peer PMs, synthesizing customer and process insights into data-driven recommendations to leadership that materially reduced PM coordination overhead

GOLDMAN SACHS

Atlanta, GA

Associate, Product Manager

2023 to 2024

- Led cross-functional delivery of 850+ customer-facing communications by partnering with 25+ global teams across Goldman Sachs and GreenSky to ensure regulatory and operational readiness and timely delivery during a major divestiture
- Defined and executed the Servicing Product Roadmap, adding new features and functionalities to address customer demands, enhancing the customer experience for 6M+ users and supporting global scalability of issuer servicing processes
- Owned end-to-end migration and separation of data across 30+ firmwide systems, mitigating risk and ensuring compliance during the transition to Sixth Street ownership, strengthening program governance and partner integration discipline

ACCENTURE

Atlanta, GA

Product Owner Senior Analyst & Product Owner Consultant

2022 to 2023

- Oversaw Agile delivery of 30+ website and system features for Accenture.com's global 0-to-1 relaunch, managing cross-functional teams spanning engineering, UX, data, SEO, and analytics
- Established a sustainability innovation roadmap, embedding measurable environmental KPIs into product workflows and connecting technology investments with strategic business outcomes for the Accenture.com redesign
- Managed Scrum teams through sprint planning, backlog grooming, and retros, improving delivery velocity and cross-functional communication to drive launch and adoption of the breakfast menu for Wendy's Canada

Consulting Analyst & Consulting Senior Analyst

2019 to 2022

- Directed change management and communication strategy for one of the largest HCM digital transformations in the U.S., reaching 90K+ employees across 34 agencies through tailored content and town halls
- Produced branded digital assets, event collateral, and signage for 15 client design-thinking sessions at the Atlanta Innovation Hub, elevating enterprise storytelling and client engagement
